THE BRAND

At Swissline, we're skincare experts with a passion for skin biology and beauty.

Our philosophy is simple: skincare should respect and work with the skin, not go against it.

Award-winning formulas embrace natural bioactive ingredients, with a focus on skin-identical such as collagen, mimetic growth factors, clinically tested peptides and many others.

THE SCIENCE

Founded in Switzerland more than 30 years ago, Swissline is one of the few brands who can trace its origins into cellular therapy. We are proud of our heritage and remain at the heart of biotechnological innovation and development to this day.

Since 2002, original animal-based materials originated in cellular therapy have been completely replaced with plant-based alternatives.

SPA IDENTITY

The aim is to allow a tailored approach to answer individual needs and lifestyles, with the use of Swiss expertise in well-aging.

Who says serious skincare can't be delightfully indulgent? Our formulas are created to awaken the senses, giving the ultimate feeling of relaxation and revitalization.

All treatments presented in the next pages are a reflection of how to best use our products, in combination with several SPA-only products that can only be applied by trained professionals, so as to deliver immediate and long-lasting results.

FACE SCULPTING

Our signature massage technique with a unique approach to skin firmness. It features the most complete and comprehensive manual facial toning techniques to tighten, while simultaneously strengthening the facial muscles and smoothing wrinkles.

Regular sculpting massages will restore the facial muscles and tissue to their previous length and shape while also bringing elasticity as well as improved lymphatic flow.

3 LEVELS OF FACE SCULPTING TREATMENTS -
SYNERGIES CAN BE TAILORED TO YOUR SPECIFIC SKIN NEEDS.
