## INSPIRED BY BEAUTY. INFORMED BY BIOLOGY.

Swiss-born and Swiss-made. Skincare formulated to achieve real results.

Award-winning products that use natural and science backed actives, with a focus on skin-identical ingredients that revitalize the skin and pamper all the senses.

Who says serious skincare can't be delightfully indulgent?

## SKINCARE YOUR SKIN UNDERSTANDS

Intelligent skincare founded in Switzerland over 30 years ago.

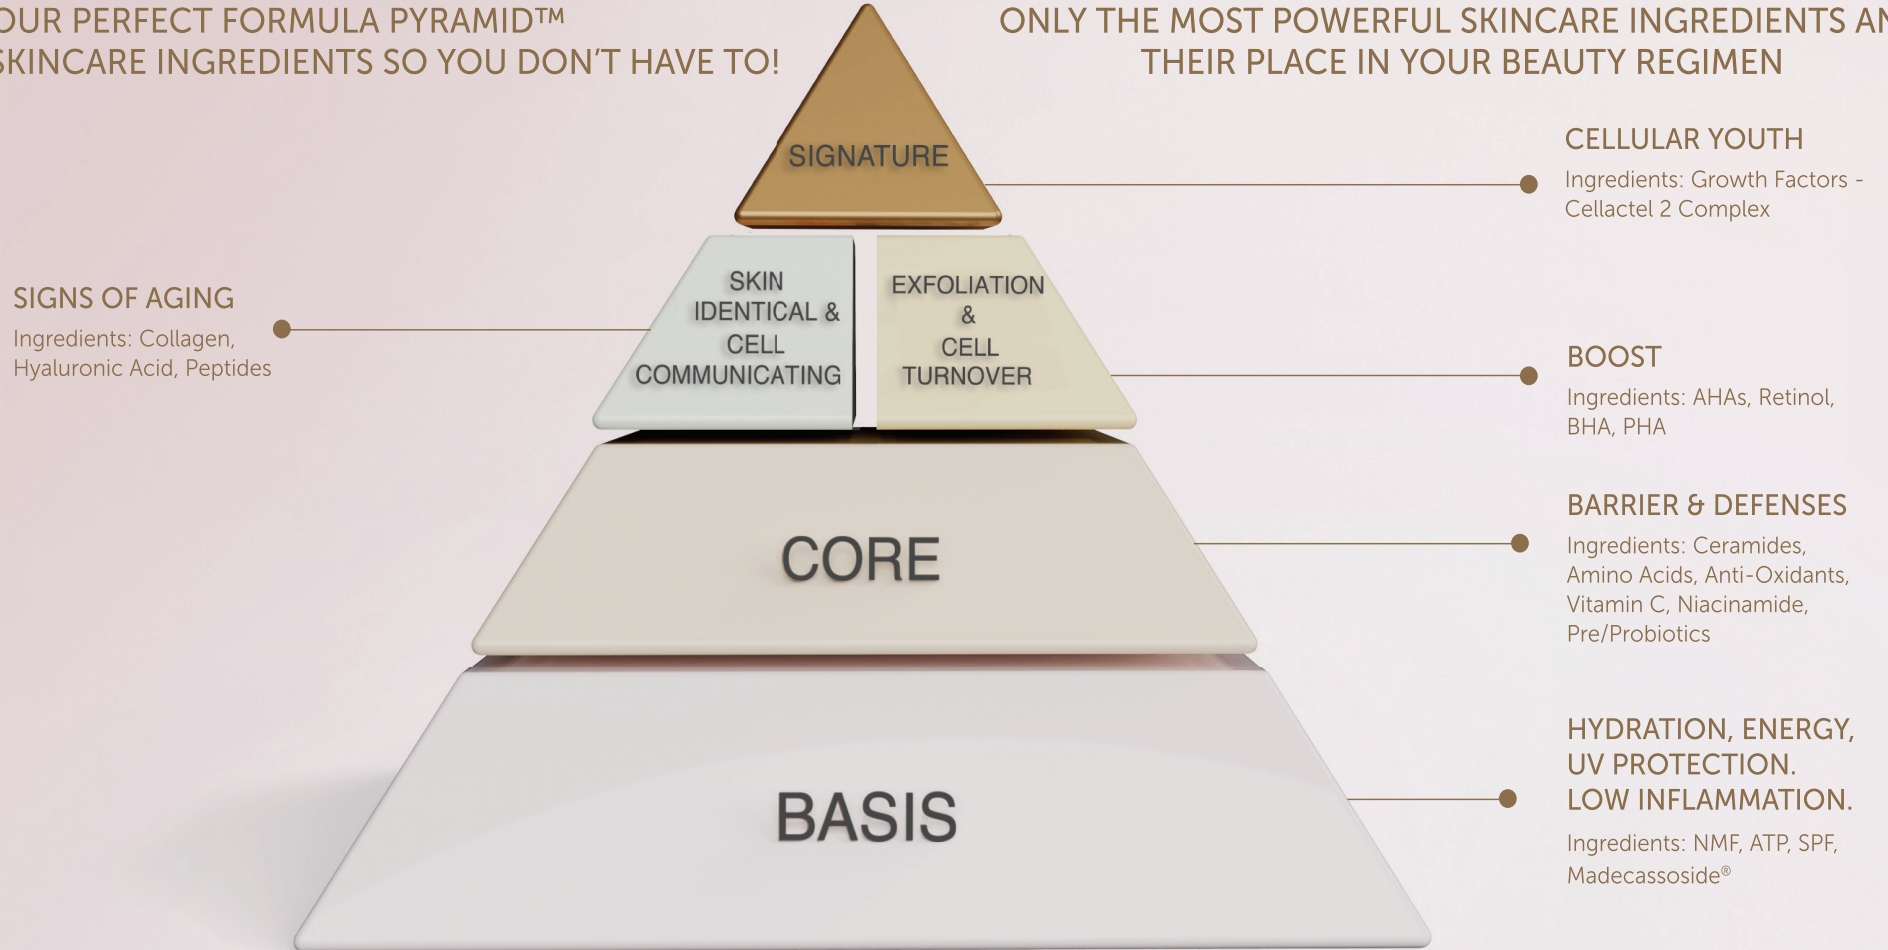

In the 21st century, it's time to comprehend what "natural" in skincare really means – natural is not so much about where the ingredient comes from, rather it should be more about where it goes, how it gets there, and how it interacts with this fascinating organ called skin.

From ideation to creation, our Swiss DNA informs everything we create. Real skincare should never be about trends and fashions – our skin is human, with its own biology and rules – it simply cannot agree to take-on market tendencies, without paying a price for it. Good skincare must respect and work with the skin, not against it.
