BY DERMALAB®

FIRMS – DRAINS – REVITALIZES

Lightweight gel-cream to address loss of firmness, poor texture and density. To be applied to all areas of the body showing sagginess and/or water retention.

It is the ideal home-use product following slimming and shaping professional treatments performed by doctors or beauticians.

CELLACTEL 2 COMPLEX

Assists in all essential skin functions, while also helping to lift and revitalize the skin. It works boosting the cell metabolism by improving tissue-oxygenation.

COLLAGEN POLYPEPTIDE

Dual amino acid polypeptide preserves the integrity of collagen fibers by limiting the degree to which they become rigid. This is due to an anti-glycation effect which in turn improves the skin's elasticity and compactness we associate with youth. The two amino acids in this polypeptide – lysine and arginine – are widely used as food supplements for bodybuilders and all those who want to develop muscular mass as they are needed to organize all the muscular tissues and connective support fibers.

SHAPING COMPLEX

Toning and slimming complex, comprised of caffeine and two synergistic botanical extracts: ginkgo (*Ginkgo biloba*) and butcher broom (*Ruscus aculeatus*), activates microcirculation and drains to fight water retention and fat tissue.

CELL SHOCK BODY

CELL SHOCK BODY BODY STAR RITUALS

A more holistic, spa-oriented approach with the concept of "Instants"

- Soft Skin Moment
- The massage trilogy
- "Timeless Care"

CELL SHOCK BODY

SOFT SKIN MOMENT

A 30-minute body scrub that can also be done without a shower.

The ritual began with light pressure on the towel to get the client used to the therapist's hand.

The therapist would then exfoliate, area by area, rinsing immediately after performing the exfoliation.

The treatment ends with the application of the Aqua Collagen cream if no other "Instant" is reserved.

CELL SHOCK BODY

THE MASSAGE TRILOGY

THE ESSENTIAL MOMENT 30 min

A targeted massage for the back or the legs, according to the desire of the moment!

THE PRECIOUS MOMENT 30 min

A unique experience combining Gua Sha stones and relaxing massage techniques to relieve tension and provide an exquisite feeling of well-being

A MOMENT IN TIME 60 min

A relaxing interlude for the body.

Ideal after a long flight or to forget the stress of everyday life.

CELL SHOCK BODY

TIMELESS MOMENT

The ultimate expression of luxury combining our Gua Sha stones and relaxing massage techniques with a radiant facial treatment, for two hours of guaranteed change of scenery.

CELL SHOCK BODY

CELL SHOCK BODY TREATMENT

FIRMS – DRAINS – REVITALIZES

A powerful duo to be used in association with high-frequency devices targeting slimming and water retention and promoting firmness and collagen production.

GLIDE-INFUSION GEL

GLIDE-INFUSION GEL is made with 60% pharma-grade glycerin and is 100% free from oil, alcohol and silicones = meant to be used as a conducting/glide gel with all devices based on high-frequency.

The originality of this formula stems from the inclusion of isoflavones and phyto-estrogens present in red clover extract. Differently from 99% of conducting/glide gels on the market which merely work as contact conductors, our gel offers a true added benefit specific to mature skin typically in need of estrogen-like therapies.

SHAPING & LIFTING COMPLEX

SHAPING & LIFTING COMPLEX is to be applied after the use of the device in a light massage following lymphatic drainage movements

PAMPERING – RELAXING – REPLENISHING

The association of these three products AND signature massage movements offer professionals an additional and awaited Swissline category.

MICRO-EXFOLIATION GEL

Water soluble clear gel with fatty acids derived from coconut. Soft and elastic beads based on lactose and natural cellulose provide a smooth micro-exfoliation that is never too harsh and makes removal much friendlier than those classic scrubs using more abrasive agents.

GOLD MASSAGE OIL

Offers great antioxidant and healing properties, perfectly caring for dry skin. It provides radiance as it nurtures mature, tired and/or damaged skin. Staying true to our belief that essential-oils are not beneficial to the human skin, this massage oil is not including any essential oil.

AQUA COLLAGEN CREAM

A luxuriously-textured body cream that includes collagen, hyaluronic acid, edelweiss flower and diamonds!.
