THE TECHNOLOGY

CELLACTEL 2 COMPLEX

A unique cell-regenerating complex that boosts vital skin functions and revitalizes cellular metabolism to "lift" the skin and visibly reduce wrinkles

WHITE UNISPHERES

A new generation of unispheres releases vitamin E upon contact with the skin.

POLYLIFT® AND RAFFERMINE®

The two original Face Lifting Complex Ingredients – both botanical tensors (polymerized sweet almond oil and proteins) – form an elastic film on the surface of the skin to improve micro-relief and reduce fine lines and wrinkles. Blended with soybean membranes and hyaluronic acid, they impact in a very noticeable lifting effect.

URBAN DETOX COMPLEX

Clinically proven, modern complex tackles "urban stress" to enhance the skin's brightness and clarity. Specific protein fractions from Moringa Seeds shield the skin from environmental pollution, while a Nasturtium stem extract promotes the role of cytoglobin as an oxygen carrier, facilitating the intercellular exchange of toxins.

HYDROLIZED LUPINE PROTEINS

Helps protein synthesis and prevents dehydration.

HYALURONIC ACID

This naturally occurring polysaccharide (complex sugar), acts as a "molecular sponge" trapping and holding water up to a thousand times its own weight. Enhances make-up and reduces signs of fatigue.

THE RITUAL

Apply morning and/or evening to face, neck and décolleté.

Smooth on sparingly and allow to penetrate before applying the appropriate Cell Shock Cream.

Can also be used alone for a more intense and visible lifting effect, before make-up on special occasions.
